WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily cured by the use of Resinol that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of a resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and Resinol soap can be bought at any drug store and are not at all expensive.

DR. D. S. FREEMAN SPEAKS TO ADVERTISERS' CLUB

Delegation Leaves To-day for Chicago Convention—May Invite Advertisers of America to Richmond.

"Standards in Advertising" was the subject of an address by Dr. Douglas S. Freeman before the Richmond Advertisers' Club at a luncheon in the Business Men's Club, American National Bank Building, yesterday afternoon. The luncheon was well attended, and great enthusiasm was shown.

Eleven delegates from the Richmond club leave to-day for Chicago to attend the annual convention of the Associated Advertising Clubs of the World. After they arrive in Chicago, they will have an opportunity to look over the situation, the Richmond delegation will determine whether or not an invitation will be extended for the association to meet in this city in 1916. There has been some misunderstanding about the requirements, and until this matter is straightened out the club did not feel like taking the responsibility for bringing the gathering to Richmond.

The delegation will include E. L. Layfield, Milton Cone, S. O. Lindeman, Norman Cole, E. Morgan Shepherd, Stacy F. Garrett, J. L. Hill, E. L. Payne, C. E. Ivey, E. R. Haas and A. O. White.

J. C. Patten, vice-president of the club, presided at the luncheon and introduced Dr. Freeman, who congratulated the advertising men on the improved standards of the profession.

He said there is a new demand for good advertisements and a place for a new type of man to write them. More judgment, more training in writing and more comprehension on the part of advertising men, they should employ.

He approved the idea of the advertising club, which has for its motto "Good Fellowship," saying that the results would be of great benefit to advertisers. Modern newspapers sell advertising space only as a business proposition, and no other method is recognized. The personnel of the advertising men greatly changed in recent years. To-day a successful advertiser must be sober, honest and have a straight, stiff standard upon which he deals in man-to-man fashion with his clients, concluded Dr. Freeman.

CANDIDATES WILL AGREE AS TO METHODS
Number of Speeches to Be Delivered Will Probably Be Severely Limited.

The Richmond candidates for the State Senate and House of Delegates will hold another conference early in next week. At this meeting an agreement will be reached as to the mode of campaigning to be followed, the number of public speeches to be made and other like details.

Agreement to which all the candidates subscribed when the first conference was held early in this week in the office of James H. Price, former city Democratic chairman, the campaign will not be "officially" open until July 12. The candidates, however, are permitted to canvass personally for votes.

VACATION SCHOOLS OPEN NEXT MONDAY MORNING

Indications Already Point to Enrollment Double That of Last Term.

TEACHING STAFF IS NAMED

Growth of Summer Work Leads Superintendent Chandler to Suggest Advisability of Operating All-the-Year-Round Public Schools.

Twelve hundred pupils have already filed out application blanks to attend the vacation school of the Richmond city public school system, which opens next Monday morning at 8:30 o'clock. The indications are that the enrollment this summer will more than double the total for last year.

The vacation school has met with such great favor and has proven so satisfactory that Dr. J. A. C. Chandler, the city superintendent, in his annual report for the last two years has made recommendations looking to the establishment of all-the-year-around schools. For four summers the vacation schools, as they have been termed, have been in operation. In 1911, the enrollment was 225; in 1912, 191; in 1913, 659, and in 1914, 688.

For the last two summers the session has continued two weeks, and the results have been such that the school board has decided to continue the ten-week period for the elementary schools. The summer session at John Marshall High School, however, will continue only six weeks. Pupils who have not already filed out applications will be received if they apply Monday morning. The daily sessions close at noon.
